

FAIRTRADE STANDARDS

FOR

Fresh Fruit (except Bananas) and Fresh Vegetables

FOR

Small Farmers' Organisations

PART A Generic Fairtrade Standards for Small Farmers' Organisations
--

Refer to the generic standard for Small Farmers' Organisations as a separate document as updated by FLO on its website. Note that the following parts B and C are only applicable in connection with the generic standard.

PART B Product Specific Standards for Fresh Fruit (except Bananas) and Fresh Vegetables	2
--	----------

The product specific standards for fresh fruit and fresh vegetables apply to all products and countries for which a Fairtrade price and/or premium is set in part C below.

1	Social Development	2
2	Economic Development	2
3	Environmental Development	2

PART C Trade Standards for Fresh Fruit (except Bananas) and Fresh Vegetables	3
---	----------

<p>PART B Product Specific Standards for Fresh Fruit (except Bananas) and Fresh Vegetables</p>

1 Social Development

There are no additional social standards specific to fresh fruit and fresh vegetables producers.

2 Economic Development

There are no additional economic standards specific to fresh fruit and fresh vegetables producers.

3 Environmental Development

There are no additional environmental standards specific to fresh fruit and fresh vegetables producers.

PART C Trade Standards for Fresh Fruit (except Bananas) and Fresh Vegetables

FLO requires fair and transparent trading conditions, regarding prices, payment conditions, quality claims procedures.

1 Buying from Certified Producers

- 1.1 All products, which are sold with the Fairtrade label, must have been produced by FLO certified producers.

2 Pricing and Premium

- 2.1 Buyers shall pay producer organizations at least the Fairtrade minimum price as set by FLO (see Appendix 1).
- 2.2 If the market price is higher than the Fairtrade minimum price, the market price shall apply.
- 2.3 In addition to the Fairtrade minimum price the buyers shall pay a Fairtrade premium as set by FLO (see Appendix 1).

3 Long term trading relationship

- 3.1 Buyers and importers (if these are not direct buyers) must use the following tools for establishing long term stable trade relationships:
- Quarterly Sourcing Plan (in case of year round supply) or Seasonal Sourcing Plan specifying the volumes expected to be bought from every Fairtrade producer organisation. The sourcing plan is an indication for producers, not an obligation to buy.
 - Contract between buyer and producer organisation. Necessary elements are: minimum and maximum volumes, quality specifications, price and payment conditions.
 - Shipment Orders, specifying the FT volume per shipment.

4 Payment

- 4.1 Payment minimum requirements: 50% of Fairtrade minimum price paid at delivery in port of production country. Rest: 48 hours after reception of documents.

5. Quality definition and claims

- 5.1 Producer organisation and buyer define quality requirements in their purchase contract. If it proves to be necessary FLO will define a regulation of the handling of quality claims.

6. Information rights and obligations

- 6.1 FLO establishes a system of control of the flow of Fairtrade goods, which must allow to certify that Fairtrade products bought by consumers are actually produced by Fairtrade producer organisations, and traded under Fairtrade conditions. All producers and traders will supply FLO with periodic information about volumes bought and sold. All trading actors allow FLO to inspect their books. Normally an external audit is required.

Appendix 1: Fresh Fruit Price Information:

Fruit	Country	Fairtrade farm-gate price per kg	Fairtrade minimum FOB price per kg	Market differential for the United States¹	Fairtrade Premium per kg
Avocados	Peru	US\$ 0.83			US\$ 0.08

Soft Citrus – other varieties	Morocco		EUR 0.46		EUR 0.05

¹For mangoes imported into the United States a hot water bath treatment is required for some countries of origin or certain regions within these countries. To this end a **market differential** is set for mangoes imported from Peru and Mexico that is paid in addition to the Fairtrade minimum price wherever US legislation is applicable.

²The farm-gate price is applicable for mangoes imported into the United States from Mexico.

Fruit	Country	Fairtrade farm-gate price per 1000 nuts	Fairtrade Premium per 1000 nuts
Fresh whole coconut	Windward Islands	US\$ 112	US\$ 11

Fruit	Country	Fairtrade farm-gate¹ price per 13 fruit units	Fairtrade Premium per 13 fruit units
Organic Mango	Haiti	US\$ 1.60	US\$ 0.45

¹ Farm-gate for organic mango from Haiti is defined as the cost of the fruit, profit to farmer, cost of harvesting, initial washing, packing into plastic crates for transport to the exporter, administration costs and profit to the association. The exporter covers transportation to the packing house, hot water treatment, stickers, cardboard boxes, packing into cardboard boxes, palletization and export costs.
