Changes to the Fairtrade Standard for Oilseeds and Oleaginous Fruit

Dear Fairtrade partners,

The Standards & Pricing Unit at Fairtrade International seeks to inform you of an amend to the product description (sections 1.3 and 1.4) in the [Fairtrade Standard for Oilseeds and Oleaginous Fruit](#). This change involves the deletion of “natural white” describing sesame seed to allow the inclusion of other colour varieties of sesame seeds.

Please note that the current Fairtrade Minimum Price (FMP) and Fairtrade Premium (FP) continue to apply and include all sesame seeds.

Should you have any questions, please contact standards-pricing@fairtrade.net

Best regards,

Andreas Kratz
Director Standards & Pricing
